

Addy Grant is an owner of multiple short-term vacation rentals. She manages 2 properties in Tahoe, 3 hours away from her home in Sacramento.

THE CHALLENGES

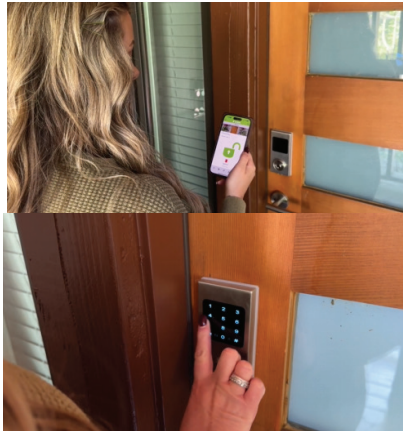

- **Limited Oversight:**
No visibility into guest arrivals, checkouts, or property access without on-site staff
- **High Turnover Costs:**
Lost keys, rekeying, and outsourced management services increase operating expenses
- **Inefficient Coordination:**
Scheduling cleaners, maintenance crews, and guests manually creates overlap and downtime
- **Security Concerns:**
Uncontrolled access to staff-only or storage areas can lead to damage or theft
- **Guest Experience:**
Complicated check-in procedures can lead to negative reviews and service delays

Short-Term Rentals

Simplify Remote Property Management with INOX Smart Solutions

SOLUTION-BASED FEATURES

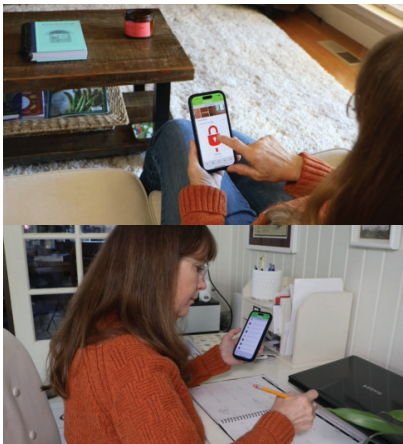

Seamless Guest Management

- Automated check-in/out access with temporary passcodes or mobile entry
- Codes expire after checkout, eliminating rekeying or lock resets
- Multiple credential options: passcode, mobile entry, and RFID
- Instant lock/unlock management for rapid emergency or support access
- Track entry history for accountability and guest verification

Better Scheduling & Management

- Assign time-based access for cleaners, inspectors, or contractors
- Prevent overlap between guests and service teams
- Create custom roles and permissions for guests and vendors
- Enable Auto-Lock to secure the property after each service visit
- Eliminate manual scheduling with automated access rotation for guests

Remote Management from Anywhere

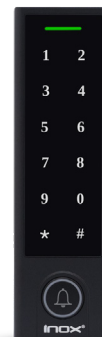

- Monitor property access in real time via the INOX Smart App or Web Portal
- View lock status, battery levels, and audit trail instantly to stay updated
- Immediate remote access for unexpected maintenance or guests
- Receive notifications for propped door or forced-entry events
- Manage multiple properties from one cloud-based dashboard
