

Smart, secure, and keyless access that simplifies property management and enhances daily living for every resident.

THE CHALLENGES

- **Key Management Chaos:**
Constant rekeying between move-ins, move-outs, and maintenance visits consumes valuable time and cost
- **Tenant Turnover:**
Frequent access changes increase administrative work and potential security gaps
- **Unauthorized Entry Risks:**
Shared or copied keys make it difficult to maintain full access control
- **Limited Oversight:**
Managers often lack visibility into who accessed units or common areas—and when
- **Amenity Access Control:**
Gyms, mailrooms, and rooftop access may require multiple different entry systems
- **System Fragmentation:**
Managing multiple lock systems, vendors, or credentials leads to inefficiency and resident frustration

Multi-family Living

Secure, Convenient, and Connected

Access Management For Every Resident

SOLUTION-BASED FEATURES

Improving Resident Convenience

- Keyless entry using passcode, RFID fob, or mobile app—no more lost keys
- Self-managed access for residents with options for guests and deliveries
- One credential for unit doors, mailrooms, gym, and laundry
- Seamless onboarding for new tenants with instant credential activation
- ADA-compliant hardware options ensures accessibility for all residents

Smart Security and Total Visibility

- Full audit trails show who accessed which space and when
- Real-time alerts for forced entry, propped door, or tampering events
- Instantly revoke access for move-outs or security breaches
- Create temporary codes for maintenance or contractors
- Remote access allows rapid response during on-site emergencies

Streamlined Management at Scale

- Manage units, amenities, and permissions in one cloud dashboard
- Bulk scheduling and credential control for move-in / move-out
- Time-based permissions for cleaners, maintenance, and construction
- Reduce rekeying and wiring costs with wireless retrofit hardware
- Scalable solution for multi-building and mixed-use communities
